

EMEET Luna Wireless Conference Speaker

Model: eMeet Luna

Manufacturer: EMEET

EAN: 6971337720197

Product Code: 1082241

R1,776

EMEET Luna Wireless Conference Speaker

The EMEET Luna is a wireless conference speaker that combines 360-degree voice pickup, three digital omnidirectional MEMS microphones, and broad compatibility with USB, AUX, USB adapter, and Bluetooth connections. The device supports meetings for up to 8 participants, and when two units are connected via a daisy chain cable, it can accommodate conversations for up to 16 people. It's a practical solution for working from anywhere—compact, portable, and easy to use, while also featuring the VoiceIA algorithm, which reduces noise and amplifies voices, improving communication comfort during online meetings.

Clear Conversations

The EMEET Luna speaker offers 360-degree voice pickup, powered by three digital omnidirectional MEMS microphones. This design allows the device to effectively capture voices from the entire room, so meeting participants don't have to sit directly next to the speaker to be heard clearly. In practice, this translates to greater freedom in conversation and more comfortable team meetings—especially in small conference rooms and during hybrid work.

Less noise, more focus on the conversation

The device uses the proprietary VoicelA DSP algorithm, designed to reduce ambient noise and amplify the human voice. This makes conversations clearer, which is particularly important when working from home, in open-plan offices, and anywhere where background sounds might hinder communication.

Flexible connectivity and quick meeting setup

EMEET Luna is designed for quick call setup without unnecessary complications. The device supports connections via USB, AUX, a USB adapter, and Bluetooth, allowing you to easily adapt the connection method to your existing equipment and work scenario. Wide compatibility makes it easy to start a meeting immediately, so the speaker is ideal for those who expect a simple and convenient solution for daily teleconferences.

Larger meetings without changing equipment

If standard meetings for a few people aren't enough, EMEET Luna lets you expand your conference setup. By connecting two devices using the EMEET daisy chain cable, you can host meetings for up to 16 participants. This is a major advantage for teams that sometimes work in smaller groups and other times need a larger setup without investing in an entirely different conference system.

A Full Day of Work

The built-in 2600 mAh battery allows for up to 10 hours of continuous talk time, which translates to a full day of work without having to search for a power outlet. A full charge takes just 2–3 hours, and thanks to the ability to work while charging via a USB-C cable, your meeting will never be interrupted midway.

Included:

- Wireless conference speaker
- 3.5 mm audio cable
- USB A200 adapter
- USB-C cable (1 m)
- User manual
- Safety instructions

Manufacturer	EMEET
Model	Luna
Microphone array	3-microphone omnidirectional array
Sampling frequency	16 kHz HD Voice
Speaker	3W * 1, 85 dB
Microphone technologies	360° sound pickup, Full Duplex, noise reduction, voice enhancement
Battery capacity	2600 mAh
Battery type	Lithium-ion
Talk time	Up to 10 hours
Charging time	2 to 3 hours
Connection methods	USB-C cable, Bluetooth, 3.5 mm jack, USB adapter (dongle)
Cable type	USB-A to USB-C, 1 m
Wireless connectivity	Bluetooth 4.2
Bluetooth adapter	EMEET A200
Number of supported devices	1 via cable, 1 via Bluetooth
Supported Bluetooth profiles	A2DP, AVRCP, HFR, SBC codec
Number of supported participants	Up to 8 people
Daisy chain	Up to 16 people (when 2 devices are connected)
