

# YEELIGHT D1 RGBIC Smart LED Strip, 20 m

Model: YLYDD-0096

Manufacturer: YEELIGHT

EAN: 6924922259718

Product Code: 1083959

## R3,327

### YEELIGHT D1 RGBIC 20m Smart LED Strip

The Yeelight LED strip is a modern lighting solution that combines extensive customization with smart control via the Matter standard. It offers over 20 preset lighting scenes and a real-time music mode, allowing you to easily adjust the lighting to any situation—from relaxation to dynamic entertainment. RGB support and DIY features let you create your own color compositions, while Matter over Thread connectivity ensures stable and energy-efficient operation in your smart home.

### Smart lighting and full RGB color control

You have over 20 preset scenes at your disposal, allowing you to instantly change the atmosphere of a room and adjust the lighting to any situation—from parties and movie nights to everyday relaxation. At the same time, the Smart RGB Color feature with DIY control gives you complete freedom to create your own color compositions, allowing you to perfectly match the light to your mood or interior design. The ability to seamlessly switch between scenes and create unique effects

makes the lighting not only practical but also fully personalized and tailored to your lifestyle.

## **Dynamic effects in time with the music**

Music mode makes the lighting react to sound in real time, creating dynamic lighting effects synchronized with the music. You can choose from various modes, such as Music Rhythm, Live Audio, Blossom, Spectrum, and Breathing, which allow you to tailor the light's response to the style of the songs and the atmosphere.

## **Smart control in the Matter ecosystem**

Thanks to Matter support, the strip works with popular systems such as Apple Home, Google Home, Amazon Alexa, and Samsung SmartThings. The use of Matter over Thread technology ensures a stable mesh connection, greater data security, and lower energy consumption. A Matter controller with Thread Border Router functionality is required for setup, and access to advanced features and automation is provided by the Yeelight App (requires the Yeelight Hub, sold separately).

## **Easy installation and user-friendly operation**

The strip features an adhesive backing, enabling quick and convenient installation on various surfaces. Installation requires no specialized tools, allowing you to easily transform the look of your interior and introduce modern, smart lighting.

## **Stability and security thanks to Thread**

Thread technology ensures greater system stability, resulting in reliable lighting control. Additionally, enhanced security measures protect user data, and low energy consumption makes the solution efficient and cost-effective for everyday use.

## **Included**

- LED strip
- controller
- power cable
