

Dahua Technology 3MP Outdoor Fixed-focal Wi-Fi Pan & Tilt Network Camera

Model: P3AS-PV

Manufacturer: DAHUA TECHNOLOGY

EAN: 6939554961137

Product Code: 1084225

R2,196

The Active Defense series of small PT cameras raises the bar on performance. After detecting an intrusion, it triggers sound and light alarms, and then instantly relays vital information on the intrusion to the mobile client, keeping you informed no matter where you are. It supports two-way talk, allowing you to communicate with people in front of the camera in real time. Additionally, it includes smart dual illuminators that not only reduce light pollution, but also intelligently turn on when they are triggered by an event to assist the camera with capturing clear, full-color videos.
