

Zalman ZM700-GV2SE power supply unit 700 W 20+4 pin ATX ATX Black

Model: ZM700-GV2SE

Manufacturer: ZALMAN

EAN: 8800263650200

Product Code: 1084556

R2,137

Cybenetics ETA SILVER

The GV2SE has an ETA Silver efficiency rating, meaning it has a guaranteed typical efficiency of 88%.

Cybenetics LAMBDA

Not only the efficiency of the power supplies is evaluated, also the noise generated by it. GV2SE series has Lambda grade for certificated silent PSU.

80 PLUS Bronze 230V EU Certified

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
itworkup.co.za | sales@itworkup.co.za | +27 (11)541-9950

80PLUS Bronze guarantees 85%, 88%, 85% efficiency with 20%, 50% and 100% load rates, significantly reducing overall system power consumption.
The higher efficiency of the PSU means that there is less leakage of current, which means less heat, high frequency noises, and fan noise.

HDB(Hydro-Dynamic Bearing)

Quiet and Long Lifespan Cooling Technology

HDB(Hydro-Dynamic Bearing) has benefits of low noise and long life span
It discharges internal that quickly and provides sufficient cooling at a low RPM to maximize stable, safe power supply

120mm HDB Fan

120mm Low-noise fan delivers powerful spin even at a low RPM to quickly removes heat from power supply for optimal cooling performance

Active PFC With 99% Maximum Power Factor

Active PFC system with maximum power factor of 99% providing consistent and stable output as well as high energy efficiency.
High efficiency ensures safe, stable system operation with low component noise, less heat from parts, and minimal fluctuation of power supply.

12V DC-TO-DC Convertor With 100% Availability

The power supply supports a wide range of PC components, minimizing variations in output voltage, maximizing 12V DC rail output to provide a stable system operation

Built-In High Performance

Capacitor That Handles Up To 221˚F

Highly reliable capacitor used to supply stable voltage even at high temperatures up to 221˚F

Built-In EMI Filter For Noise Reduction

EMI filter is installed to suppress frequency that causes noise for better system operation.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
itworkup.co.za | sales@itworkup.co.za | +27 (11)541-9950

Aluminum Solid Capacitor

All capacitors in the power supply are top quality and very reliable in supplying stable power even at high temperature.

Multiple Protection Circuit System

Multiple protection circuit system protects your system

OTP (Over Temperature Protection)

OCP (Over Current Protection)

OPP (Over Power Protection)

OVP (Over Voltage Protection)

UVP (Under Voltage Protection)

SCP (Short Circuit Protection)

Highly Energy-Efficient Standby Power Supply

ZALMAN’s power supply has such remarkable energy efficiency, that during standby the power supply can be kept under 0.5W to avoid any unnecessary power consumption.
The power supply has acquired ErP LOT 6 which passed european energy saving standards for environmental friendly and energy efficient experience for users.

Eco-Friendly Products

All Materials Included Are Environmentally Safe And Harmless.

RoHS Compliant

Certified products are environmentally safe that do not cause harm to the human body.
Certification is received when XRF testing determines that the 10 hazardous substances is below the standard value for the electronic products exported to europe.
Unlike other inexpensive products, ZALMAN’s products are produced from the beginning with RoHS standards in mind.

Intel and AMD RYZEN 100% Compatible and Ready

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
itworkup.co.za | sales@itworkup.co.za | +27 (11)541-9950

Meets all the needs of Intel and AMD RYZEN processors for high performance PC users.

Compact size

Standard ATX size provides wide compatibility

All Black Cables

Black Flat Cable

Zalman applies flat cable to all cables, which makes the cables easier organize when building system

Compnents and Accessories

Components

Manual, Screws, Cable Ties, Power cord

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
