

Canon RF-S 10-18 mm f4.5-6.3 IS STM MILC Wide zoom lens Black

Model: 6262C005

Manufacturer: CANON

EAN: 4549292222012

Product Code: 1085052

R8,659

With an incredibly wide-angle view of up to 10mm, the RF-S 10-18mm F4.5-6.3 IS STM zoom lens lets you explore the wider world and capture it in new, dynamic ways. The lens uses its super-wide zoom angle to be extremely versatile, proving great for both stills and videos. Light and compact with a retracting design to stow it in even the smallest of bags, it's the ideal travel partner. Plus, with up to 4-stops Optical Image Stabilisation¹ you can leave the tripod at home to shoot and film with confidence even when light levels drop.

An ultra-wide angle zoom for versatile views

Get more in the shot with this great Canon landscape lens even when you can't stand back and experiment with foregrounds, backgrounds, scale and size. Capture wide views, up close or far away, indoors or out for stills and video.

Get close and get creative

Discover angles you never thought possible. A 0.5x magnification allows stunning wide close-up shots while a combined lens control and focus ring helps you fine tune images while you shoot.

Take control and shoot handheld

A 4-stop Optical Image Stabilizer produces smooth, shake-free results for both stills and video. This means you can shoot or film in low light without reaching for a tripod.

Small enough to take anywhere

Thanks to the RF mount, the RF-S 10-18mm F4.5-6.3 IS STM is Canon's smallest and lightest ultra-wide angle zoom lens, featuring a lens retraction mechanism to make it even smaller when not shooting – ideal when you can only take a smaller bag. It's the perfect wide lens to take on your travels.

Shoot great movies, let the lens do the work

Stunning quality movies come easily thanks to an STM motor that performs smoothly for cinematic quality focus pulls. You also get a consistent, natural looking field of view when you are shifting focus thanks to focus breathing correction compatibility.
