

PXN-V900 Gen2 gaming steering wheel

Model: PXN-V900 GEN2

Manufacturer: PXN

EAN: 6948052903693

Product Code: 1085327

R2,996

PXN-V900 Gen2 gaming steering wheel

Step onto a virtual track where every turn, every gear shift and every moment features exceptional realism. The PXN-V900 Gen2 gaming steering wheel offers the precision of a 16-bit magnetic encoder that captures even the tiniest movements and multi-stage vibration. The adjustable rotation angle allows you to customize the device's action to suit any driving style. Dynamic RGB backlighting guarantees an extra layer of immersion. You'll find metal pedals with Hall Magnetic technology that excel in sensitivity and durability. The whole thing is compatible with PC, Xbox, PlayStation and Nintendo Switch.

Magnetic precision

The advanced 16-bit magnetic encoder precisely mimics your every move for perfect control of your vehicle. Every turn and minimal movement of the steering wheel is recorded in real time, putting you in full control of the track situation.

Harmony of vibration and immersion

Thanks to dual multi-stage vibration motors, you will experience realism at the highest level. The PXN-V900 Gen2 responds to every element of gameplay - from road irregularities to vehicle dynamics. The result? You'll feel every change in the road surface, sudden maneuver and difference in the car's behavior.

Choose the perfect pivot angle

The function of switching between 270° and 900° rotation angle allows you to adjust the steering wheel to suit a variety of driving styles. The 270° mode will be perfect for dynamic arcade games, while the full 900° rotation - replicating real steering wheel movements in cars - allows precise maneuvers in simulations.

Smooth gear shifting

The gearshift paddles, made of durable ABS material, are designed to mimic those used in Formula 1 cars. With intuitive operation, you can shift gears in an instant without taking your hands off the wheel.

Hybrid pedals with Hall Magnetic technology

Magnetic technology-based pedals that accurately detect the amount of pressure are included. The metal and wear-resistant pedal panels faithfully mimic real pedals, offering maximum comfort and stability. The non-slip finish and foldable design add to the convenience of use, while the wide sensitivity range allows you to precisely control every movement.

Comfort that leads to victory

The 28 cm diameter steering wheel with TPE rubber-coated grip provides comfort even during long games. The ergonomic layout of the buttons means that everything you need is always at hand. The built-in RGB backlighting not only enhances the visual appeal, but also reacts to your movements, indicating braking or acceleration force, among other things. Mounting clips allow you to attach the steering wheel to a table or desk.

Multi-platform compatibility

The PXN-V900 Gen2 works with multiple platforms, including Nintendo Switch, PlayStation, Xbox and PC. The set is compatible with major blockbusters such as Forza Horizon 5, Euro Truck Simulator 2 and Gran Turismo 5. Whether you choose a racetrack, quiet roads or dynamic rallies, the PXN steering wheel is up to any challenge.

Included:

- PXN-V900 Gen2 gaming steering wheel
- Hall Magnetic pedals
- Mounting clamps x2
- USB-C to USB-A cable x2
- Micro USB to USB-A cable
- User manual

Manufacturer	PXN
Manufacturer code	PXN-V900 GEN2
Connection type	Wired
Dimensions of steering wheel	280 x 334 x 285 mm
Pedal dimensions	232.5 x 183 x 140 mm
Steering wheel weight	Approximately 2270 g
Weight of pedals	Approximately 845 g
Operating current	In normal use: 80 mA / During vibration: 150 mA / During controller control: 500 mA
Operating temperature	10 to 40°C
Operating humidity	20 to 80%
