MERACH MR-S38B2-EU Exercise Bike

The MERACH MR-S38B2-EU is a magnetic spinning exercise bike that's perfect for both gentle cardio workouts and more intense fitness sessions. The model features 16 resistance levels, a 6 kg flywheel, and a modern magnetic system that ensures a smooth and exceptionally quiet workout—the noise level does not exceed 25 dB. The design is suitable for users weighing up to 136 kg and standing between 144 and 188 cm tall, so virtually the whole family can use the bike. Additional features include an LCD display, compatibility with the MERACH, Kinomap, and Zwift apps, and compact dimensions of 114 x 52 x 120 cm, which make it easy to set up the bike even in smaller rooms.

Smooth ride and comfort without unnecessary noise

The magnetic resistance system operates without contact with the flywheel, so the bike runs very quietly and doesn't generate annoying noises during your workout. This allows you to exercise in the

morning, evening, or indoors without worrying about disturbing other household members. The smooth belt drive improves riding comfort and ensures that changes in intensity occur without jerks. An additional safety feature is the emergency brake, which allows you to quickly stop the bike if necessary and increases user safety during more dynamic workouts.

Adjustments tailored to different users

The MERACH bike is equipped with an adjustable handlebar and a seat with height and depth adjustment. This makes it easy to adjust the position to your height and riding style, resulting in a more comfortable and effective workout. The ergonomic seat with cushioning and a ventilated design helps reduce discomfort during longer cardio sessions. The stable double-triangle frame increases the durability of the entire bike, making it well-suited for more intense use.

Training under full control

The built-in LCD display allows you to monitor key training parameters in real time, such as ride time, distance, speed, and calories burned. This makes it easier to track your progress and adjust the intensity of your workouts to your capabilities. The bike is compatible with the MERACH, Kinomap, and Zwift apps, which provide access to pre-set training plans and interactive routes. Data synchronization with Google Fit and Apple Health allows you to conveniently track your activity and build regular training habits.

Convenient solutions for home use

The MR-S38B2-EU model is designed for daily use at home, in the office, or in a small gym. Integrated transport wheels make it easy to move the bike without having to lift the entire structure, which will be especially appreciated by those exercising in limited spaces. A phone or tablet holder allows you to watch videos, listen to music, or use workout apps while riding. With a compact width of 52 cm, the bike doesn't take up much space while remaining stable even during more demanding workouts.
