HyperX Knight Backpack

Model: 8C525AA

Manufacturer: HP INC.

EAN: 197192827130

Product Code: 1088293

R2,137

Mobilize your gaming HQ.

We built the HyperX Knight Gaming Backpack for gamers who don’t want to risk their performance on someone else’s gear. It features a clamshell-style opening that makes it easy to deploy your own personal gaming pop-up anywhere you roam. Classic HyperX styling lets you tastefully rep your love of HyperX and gaming while you’re out and about. Securely stow gaming laptops as large as 16 inches, plus several other necessary bits of gaming kit like a controller, keyboard, tablet, or more thanks to the Knight’s cavernous interior. Internal storage slots carve out compartments for cables, pens, power banks, and other important gear. These easy-access compartments also help simplify the bag check process. A handy quick access pocket offers additional storage for easy access to snacks or other utility items. Is your back getting tired of all that carrying? Tuck the shoulder straps away and use the handy duffel strap to let your arms put in some work or use the luggage handle passthrough to attach it to your rolling luggage.
