connected to your laptop when in a carrying bag, without worrying about damaging the adapter or the host port while on the move.

The USB wireless adapter is capable of data transfer rates up to 300Mbps over a 2.4GHz 802.11n WiFi network (backward compatible with 802.11b/g), through a 2 Transmitter / 2 Receiver antenna design. The adapter also supports security options such as WEP, WPA or WPA2, as well as quick device connection through Wireless Protected Setup (WPS), for a reliable and secure connection.

The StarTech.com Advantage

- Leave the adapter plugged into your laptop without worry, with an ultra-compact adapter
- Ensure fast, reliable network connectivity, with full Wireless-N compatibility
- Connect to older wireless networks easily, with 802.11b/g backward compatibility
