

Imou T800 dashcam 4K Ultra HD Wi-Fi DC Black

Model: LC-CDR8411-W-T800

Manufacturer: IMOU

EAN: 6939554951244

Product Code: 1089075

R1,897

IMOU T800 4K Dash Cam

The IMOU T800 dashcam records video in 4K resolution (3840 × 2160) at 30 fps, utilizing a 1/2.9" CMOS sensor and a bright F2.0 lens, which results in clear and detailed footage both day and night. The wide 136° field of view captures more of the area in front of the vehicle, and H.265 compression ensures efficient recording without loss of quality. The device is designed to operate in a wide temperature range from -20°C to 70°C and at humidity levels below 95% (non-condensing). This ensures stable operation both in winter and on hot days. Low power consumption of ≤5 W and a 5V/2.5A DC power supply via the USB-C port ensure efficient and trouble-free operation every day. The compact design, measuring 139 × 124 × 54 mm and weighing 300 g, keeps the camera discreet and does not obstruct visibility while driving.

Clear images in all conditions

The use of a bright F2.0 aperture and high 4K resolution allows the camera to capture details essential for analyzing traffic incidents. Recordings maintain the legibility of license plates, road signs, and other key elements. Additionally, the wide 136° field of view allows for a broader coverage of the road, which enhances safety and provides a more complete picture of the situation on the road.

Intelligent recording protection with G-Sensor

The built-in G-Sensor automatically detects collisions or sudden events and protects the current recording from being overwritten. This ensures that the most important moments remain saved and accessible when needed. This solution eliminates the risk of losing key footage and enhances your sense of security during daily driving.

Features You'll Appreciate

The camera is equipped with a Wi-Fi AP module that allows connection to a dedicated mobile app. This lets you easily configure it, view live footage, search for saved recordings, and create backups. Wireless communication significantly simplifies device management without having to remove the memory card. Additionally, the IMOU T800 features a built-in microphone and speaker, allowing you not only to record audio but also to play back recordings directly from the device. The OSD function allows you to display information such as the date and time, making it easier to identify recorded footage. Support for TF cards up to 256 GB provides ample storage space for recordings, making the camera ideal for longer trips as well.

Included:

- Dashcam
- Car charger
- Power cable
- Electrostatic stickers x2
- Quick start guide

General

Manufacturer	IMOU
Model	LC-CDR8411-W-T800
Operating temperature	-20°C to 70°C
Operating humidity	95% (non-condensing)
Power supply	DC 5V / 2.5A
Power consumption	≤5W
Dimensions	139 mm × 124 mm × 54 mm
Weight	300 g

Camera

Image sensor	1/2.9" CMOS
Resolution	4K
Frame rate	30
Field of view	136°
Aperture	F2.0
Video compression	H.265
OSD	Display of time, date, etc.
Image format	JPEG
Storage	TF card (up to 256 GB)
Communication module	Wi-Fi AP
G-sensor	Built-in, supports collision recording lock

Interface

Power supply	USB-C
Audio input	Built-in microphone
