

Imou S800PRO 4K Ultra HD Wi-Fi DC

Model: S800 PRO

Manufacturer: IMOU

EAN: 6939554951343

Product Code: 1089077

R3,067

IMOU S800 PRO Dash Cam, 4K

The IMOU S800 PRO is a dual-lens dash cam that records in high-resolution 4K (3840 × 2160), ensuring detailed footage of every situation on the road. Thanks to its 1/2.9" CMOS sensor, bright F2.0 lens, and wide viewing angle (123°), it captures clear footage both during the day and in low-light conditions. The device operates at 25 fps and uses H.265 compression, so recordings maintain high quality while saving space on a memory card up to 256 GB. Additionally, it features a 3-inch screen, which significantly enhances user comfort.

Wide field of view

The use of two cameras allows for recording from different perspectives, which increases control over the situation around the vehicle. The wide 123° viewing angle allows you to capture a larger area of the road, which is particularly useful when driving in city traffic. This solution ensures that no important detail is overlooked, and the recordings provide a more complete record of events. —

Clear display and user-friendly operation

The camera is equipped with a 3-inch screen (non-touch) that allows for quick previews of recordings and convenient management of settings. This enables the user to monitor the device's operation in real time without the need for additional accessories.

Wi-Fi connectivity and app control

The built-in Wi-Fi AP module allows the camera to connect to a mobile app, enabling configuration, live viewing, reviewing recordings, and archiving them. This solution eliminates the need to remove the memory card and significantly speeds up access to saved footage.

Smart recording protection and additional features

The built-in G-sensor automatically detects collisions or strong shocks and protects the current recording from being overwritten. The camera also supports voice control and GPS route playback, which enhances functionality and allows for better analysis of the trip. The built-in microphone and speaker enable audio recording and playback directly from the device.

Reliable operation in all conditions

The device operates in a wide temperature range from -20°C to 70°C and at humidity levels below 95% (non-condensing), allowing for year-round use. The IP52 rating provides basic protection against dust and splashes. The camera is powered via USB-C (DC 5V/2.5A), and its power consumption does not exceed 5 W, ensuring energy-efficient operation.

Included:

- Dashcam
- Car charger
- Power cable
- Mount
- Static cling stickers x2
- Quick start guide

General

Manufacturer	IMOU
Model	S800 PRO
Operating temperature	-20°C to 70°C
Operating humidity	95% (non-condensing)
Power supply	DC 5V / 2.5A
Power consumption	≤5W
Dimensions	162.5 mm × 137.5 mm × 62 mm
Weight	750 g
Protection rating	IP52

Camera

Image sensor	1/2.9" CMOS
Effective resolution	4K
Camera resolution	4K + 1080P
Frame rate	25
Viewing angle	123°
Aperture	F2.0
Screen	3" non-touch screen
Video compression	H.265
OSD	Displays time, date, etc.
Image format	JPEG
Storage	TF card (up to 256 GB)

Communication module

Wi-Fi AP

G-sensor	Built-in, supports post-collision recording lock
----------	--

Interface

Power USB-C

Audio input Built-in microphone

Audio output Built-in speaker
