Powerful 11mm dynamic drivers deliver deep, full-bodied bass, while dedicated balanced armatures from Knowles add clarity and precision. Together, they create a rich, immersive sound that’s perfect for focused listening or laid-back moments.

Hi-Res audio, wirelessly

Enjoy music the way it’s meant to sound, clear and full of detail. LHDC (Low-Latency High-Definition Audio Codec) delivers high-quality, low-latency wireless audio for a richer, more immersive Bluetooth® listening experience.

Immersive sound all around

Spatial Audio5 expands your listening experience into a 360-degree space, making movies sound more cinematic, and music more immersive.

Tune out the noise. Tune into clarity.

With Dynamic ANC tuned with Bose engineers, moto buds 2 plus reduce background noise automatically, adjusting to your environment so you stay focused, present, and in control of your sound.

An advanced 6-mic system (3 per earbud) with Environmental Noise Cancellation keeps your voice clear by reducing background noise. In louder settings, Crystal Talk3 AI adds intelligent noise reduction for clearer calls.

Transparency Mode lets outside sound in while your audio keeps playing, so you stay aware of your surroundings without breaking your flow.

Power that outlasts your playlist

Enjoy long-lasting battery life that moves effortlessly from work to play, with 9 hours of listening on a single charge1 and 40 hours in total1 . And when you’re running low, a quick 10-minute charge delivers 2 hours of playback2 , so your music keeps up with you.

Switch devices seamlessly
