Uni-T LM600 Laser Distance Meter

The LM600 is a laser rangefinder from the LM series, designed for precise measurements of distance, height, angle, and speed. The device uses an eye-safe pulsed laser, making it ideal for field work and semi-professional applications such as engineering measurements, navigation, golf, and hunting. The built-in optical system with 6x magnification facilitates target observation, and the easy-to-read LCD display ensures quick reading of results in various conditions.
