

LENOVO 140W Laptop PowerBank 1y

Model: G0A3140WWW

Manufacturer: LENOVO

EAN: 195892138525

Product Code: 1089588

R2,107

The Lenovo power bank is designed to meet the demanding needs of laptop users, featuring a robust lithium-ion battery with a capacity of 20,000 mAh and 36.72 Wh. The power bank provides an output of 140 watts, ensuring devices stay charged during long work hours or travel. It includes a user-friendly display to monitor power levels and connectivity. Built with durability in mind, the plastic material used complies with multiple standards such as CB, FCC, and IC, making it a reliable choice for safety and efficiency.

Equipped with a variety of ports, this power bank offers dual 24-pin USB-C inputs and multiple output options, including two 24-pin USB-C connectors and one 4-pin USB Type-A port. Its included 1.5 m USB-C cable adds convenience, allowing users to charge devices efficiently. With features like over-current, over-temperature, and overvoltage protections, this power bank is engineered for safe operation, making it a trustworthy companion for any laptop.
