R3,327

JMGO Floor Stand for N1S SE, Nano, PicoPlay+

Elegant, stable, and designed with modern spaces in mind—the JMGO floor stand is more than just a standard projector accessory. It combines high-quality aluminum construction with intuitive adjustment, offering convenience for everyday use. Thanks to its universal 1/4" mount, it works well with both JMGO projectors and other devices, while the built-in cable management system ensures a clean, clutter-free look. The stable base and refined details guarantee the safety of your equipment, and quick, tool-free assembly means you can enjoy your setup right away.

Stability you can rely on

The stand's construction is based on solid aluminum, which ensures durability and adequate rigidity throughout the structure. The four-point, arched base is designed to maximize stability and prevent

the stand from shifting, even during heavy use. Additionally, the non-slip feet protect the floor surface from scratches, which is particularly important in home and office environments.

Versatility that offers more possibilities

Thanks to the standard 1/4" thread, the stand is compatible with JMGO projectors such as the N1S SE, Nano, and PicoPlay+, as well as a wide range of other devices—from cameras to smartphones. With a maximum load capacity of 10 kg, it can easily support a variety of equipment, offering great flexibility for use both at home and in a professional studio.

Effortless organization

The built-in U-shaped cable channel allows you to hide cables in seconds and maintain an aesthetic appearance of the setup. This solution ensures minimalism and order—without a tangle of cables and without the need for additional accessories. The entire design is intended to make cable management quick and intuitive.

Adapted to your needs

The stand is equipped with an adjustable mount and a built-in knob that allows for precise adjustment of the device to the correct angle. This lets you easily adjust the projector's position to suit the room's conditions and your preferences, achieving a perfect image without compromise. This solution works well for both everyday use and more demanding setups.

Simple assembly

Assembling the stand takes just a few minutes and requires no tools. The set includes all necessary components, such as the head, rod, base, cover strip, and instructions, making the entire process quick and hassle-free. This solution is designed with convenience in mind, allowing you to start using the equipment right away.

Included
