NEEWER CS1M Carbon Fiber Camera Slider (40 cm)

The NEEWER CS1M is a lightweight and compact 40 cm camera slider that allows you to capture smooth and stable video footage without unwanted vibrations. Its carbon fiber and aluminum alloy construction ensures excellent rigidity while maintaining a low weight, making the slider ideal for both studio and outdoor use. The model supports a load capacity of up to 2 kg during horizontal operation and allows for filming horizontally, vertically, or at a 45° angle, providing greater creative freedom for dynamic shots.

Smooth and Quiet Camera Movement

The slider is equipped with four precision bearings that ensure smooth, even, and nearly silent camera movement along the rail. This design allows for professional footage without unwanted jerks

or disturbances. A side tension adjustment knob also makes it easy to control the carriage movement and adapt the slider's resistance to your specific filming style.

Adjustable Legs for Stability on Any Surface

The CS1M model features adjustable legs that rotate 360°, making it easy to find the right position even on uneven ground. The ability to adjust the height from 2 to 5 cm helps maintain stability when working in challenging terrain. Additionally, the built-in spirit level allows you to quickly check the slider's alignment, ensuring perfectly level shots every time.

Universal Mount for Various Devices

The kit includes a mini ball head that allows for 360° rotation and tilt adjustment up to 90°, making it easy to set the perfect shooting angle. The slider is compatible with DSLR cameras, mirrorless cameras, camcorders, smartphones, and action cameras. The included adjustable phone mount supports devices ranging from 5.7 to 8.6 cm in width and features an additional 1/4" thread and a cold shoe mount for attaching accessories such as a microphone or LED light.

Lightweight Design Ready for Field Use

Weighing just 615 g, the slider is highly portable and perfect for mobile shooting. The included carrying case ensures safe storage and convenient transport between locations. Thanks to its compact dimensions and low weight, this slider is ideal for outdoor work, travel, and any situation where mobility and quick setup are essential.
