

Cycplus AS2 PRO MAX mini electric pump

Model: AS2 PRO MAX

Manufacturer: CYCPLUS

EAN: 6976297860846

Product Code: 1090753

R2,831

Cycplus AS2 PRO MAX mini electric pump

The Cycplus AS2 PRO MAX is a compact yet extremely powerful electric inflator, offering a maximum pressure of 120 PSI and very fast inflation. The device is capable of inflating a 700 × 25C tire from 0 to 120 PSI in about 75 seconds, and is also equipped with an easy-to-read LED screen and a battery with a capacity of as much as 600 mAh. All of this makes it combine mobility with impressive power, proving itself in a wide range of applications.

Fast pumping and wide range of applications

High performance and ample power make the AS2 PRO MAX suitable for most scenarios. One full charge can inflate a 29 × 2.2 MTB tire from 30 to 50 PSI about 7 times, a 700C25 tire from 0 to 120 PSI about 4 times, a 195 car tire from 2 to 2.5 bar about 4 times, and a ball from 0 to 9 PSI about 19 times. The maximum pressure of 120 PSI provides versatility and allows the inflator to be used for many different tasks.

Exceptional precision

An integrated gauge with an accuracy of ± 1 PSI makes it possible to set the target pressure accurately. Once it is reached, the pump automatically stops operation, eliminating the risk of over-pumping. This makes the pumping process seamless and without the need for constant monitoring.

Easy-to-read LED screen

The built-in LED screen presents all important information about the pump's operation in real time. With its help, you can check the current pressure, the selected unit (BAR or PSI) and the battery charge level at any time. This makes operating the device intuitive and convenient.

Powerful battery

The pump is equipped with a 600 mAh battery, which is charged via a USB-C port. It takes about 1 hour to fully charge - you don't have to wait too long! In addition, the balanced charging technology used increases the battery life, providing about 200 cycles with less than 10% capacity degradation. What's more, even after a month in standby mode, the charge level remains at about 50%!

Compact and versatile

The AS2 PRO MAX pump weighs only 205 g, and its dimensions are 54 × 32 × 81 mm. This allows you to carry it with you at all times - it will fit in your backpack or even in your pocket. The kit also includes a special hose, which makes it easier to pump and small diameter tires. What's more, the improved tip design allows you to quickly switch between Presta and Schrader valves - without the need for additional accessories.

Ready for tough conditions

The AS2 PRO MAX model is made of durable aluminum alloy. In addition, you will find a silicone insulating case that protects the device from overheating during operation, as well as a waterproof pouch to ensure safety even in the rain. Thanks to these features, the pump will work well during daily commutes, workouts, longer trips and more.

Included

- Pump x1
- Presta valve converter x1
- Silicone sleeve x1
- Hose x1
- Waterproof pouch x1
- Sealing element x1
- USB-C to USB-C cable x1
- Ball pump needle x1

Manufacturer	Cycplus
Model	AS2 Pro Max
Battery capacity	600 mAh
Battery voltage	11,1 V
Charging port	USB-C
Charging time	Approx. 1 h
Charging parameters	5 V / 1.5 A
Current intensity	2,5-5,5 A
Maximum pressure	120 PSI
Accuracy	±1 PSI
Pumping speed	120 PSI in approximately 75 s
Dimensions	54 × 32 × 81 mm
Weight	205 g
