

HiBREW G4B manual coffee grinder with adjustable grind.

Model: G4B

Manufacturer: HIBREW

EAN: 6975702150596

Product Code: 1091416

R2,236

HiBREW G4B adjustable manual coffee grinder.

For coffee lovers who value complete control over the grinding process, the HiBREW G4B is an excellent choice. With its sturdy aluminum and glass construction and precise grind mechanism, it provides an even grind that brings out the best in the beans. You can adjust the degree of grinding yourself. The minimalist design makes it not only practical, but also elegant - it looks great in any kitchen.

Lightweight and portable - perfect for traveling

With a weight of just 450 g, the HiBREW G4B is a grinder made for those who don't want to give up excellent coffee even when away from home. Its compact design means it will fit in a backpack,

travel bag or suitcase, making it the perfect companion for camping trips, business trips and vacation trips out of town.

Conical querns - durability and perfect consistency

The HiBREW G4B uses high-quality conical querns that have undergone precision CNC machining and a hardening process. This design ensures fast and even grinding without overheating the grains, which preserves their full flavor and natural oils.

Excellent ergonomics and comfort of use

The long handle provides a comfortable grip and smooth movement, making it easy to grind even harder grains. Thanks to the textured surface of the housing, the grinder sits securely in your hand, preventing slippage during grinding.

Full control over grinding

Precise, multi-stage adjustment allows you to choose the right setting - from ultra-fine grinding ideal for Turkish-style coffee, to fine grinding for espresso, to medium and coarse steps ideal for pour-over methods or French Press. With just one movement, you can adjust the grinder to your preferences. The glass container for the ground coffee allows you to keep track of the amount and coarseness of the grind.
