

HiBREW G3 electric coffee bean grinder

Model: G3-black

Manufacturer: HIBREW

EAN: 6975702150060

Product Code: 1091908

R2,612

HiBREW G3 electric coffee grinder.

For a true coffee drinker, it's not just the taste that counts, but also the entire preparation process. If you love aromatic espresso, perfectly brewed pour-over coffee or intense mocha, the HiBREW G3 is the grinder that will take your coffee passion to the next level - no matter where you are.

Precision grinding - 31 levels of adjustment

Forget about haphazard grinding - now you have full control over bean thickness. The HiBREW G3 offers up to 31 levels of adjustment, so you can adjust the grind to suit any brewing method. Do you want perfectly finely ground beans for espresso? Or are you looking for medium thickness for a classic drip? This grinder gives you freedom of choice and a guarantee of repeatable results.

Residue elimination system

You know how important the freshness of ground coffee is. The HiBREW G3 is equipped with an air blowing system that removes coffee residue after grinding, eliminating the risk of old particles remaining. This ensures that every batch is clean, fresh and full of flavor - exactly as it should be.

High-quality conical grinds

At the heart of this grinder are precision 48-millimeter conical querns, made of hardened stainless steel. They guarantee even grinding and minimize the heating of the beans, so the coffee does not lose its intense flavor. The even texture of the ground coffee translates into better extraction, resulting in a fuller taste experience from each cup.

Precise amount of coffee every time

With one click, you choose whether you're grinding coffee for one or two cups. Thanks to the digital dosing system, you're assured of a perfectly measured portion every time - no more wasted beans or uneven proportions. You can also use the manual mode if you want full control.

No more spilled coffee - anti-static function

Grinding coffee often ends up with spilled particles on the countertop? Not with the HiBREW G3. The built-in anti-static coating eliminates the problem of ground coffee sticking to the walls of the container and prevents spills, making handling clean and comfortable.

Manufacturer	HiBREW
Model	G3
Power	220W
Voltage	220-240V 50Hz; 220-240V 60Hz; 110-127V 60Hz
Weight	1.6 kg / 2.6 kg
Dimensions	220 × 165 × 360 mm
Filament	Conical, precision 48 mm
