Liene Pearl N200 Pro Portable Photo Printer

The Liene Pearl N200 Pro 2x3" portable photo printer in an elegant gold color is a compact device that uses dye-sublimation printing technology, allowing you to quickly print photos as self-adhesive prints directly from your smartphone via Bluetooth 5.2. Its lightweight design, USB-C charging, and a built-in battery capable of producing up to approximately 27 photos on a single charge make it ideal for both everyday use and travel. A print resolution of 300 dpi ensures good photo detail, and the use of dye-based ink cartridges helps maintain consistent quality in every print.

Clear photos and long-lasting colors

Dye-sublimation technology combined with 300 dpi resolution results in clear details and smooth color transitions. This makes the photos look natural and aesthetically pleasing, without visible pixels

or harsh tonal transitions. An additional protective layer shields prints from moisture, fingerprints, and oxidation, helping photos retain their quality for longer.

Printing as Stickers

The 2x3" format and self-adhesive paper enhance the functionality of your photos. You can immediately stick the finished print in an album, notebook, or on various surfaces without needing glue. This is a convenient solution for people who like to create physical keepsakes or personalize their belongings.

Easy to Use and Mobile App

The printer works with the dedicated InstaPic Druck mobile app, which allows you to quickly transfer photos and perform basic editing before printing. You can easily crop the frame, add borders or filters, and then proceed to printing immediately. The entire process is intuitive, requiring no experience or additional software.

Stable connection and easy sharing

Bluetooth 5.2 ensures a stable connection to your smartphone and smooth photo transfer. More than one person can use the printer, making it easy to share the device during meetings or trips. In practice, this means conveniently printing consecutive photos without unnecessary interruptions or complications.

Portability and long-lasting battery

Its compact design and light weight of just 340 g make the Pearl N200 Pro the perfect travel companion. The built-in battery allows you to take up to approximately 27 photos on a single charge, which is sufficient for extended use away from home. USB-C charging simplifies recharging and enhances the convenience of using the device in various conditions.

Included

- Liene Pearl N200 Pro portable printer
