

GARRETT Ace Apex 8.5x11 Metal Detector

Model: 1142360

Manufacturer: GARRETT

EAN: 786156005860

Product Code: 1091915

R11,243

GARRETT Ace Apex 8.5x11 Metal Detector

Treasure hunting takes on a whole new dimension when you have equipment that combines versatility, precision, and cutting-edge technology. The GARRETT ACE APEX model with the Raider 8.5x11 coil features advanced Multi-Flex technology, a wide range of frequencies, and a multi-frequency mode, making it ideal for all conditions—from fields and forests to beaches and shallow water. Intuitive operation, a clear LCD screen, and extensive customization options make it comfortable to use for both beginners and experienced treasure hunters. Add to that wireless Z-Lynk technology, long battery life, and precise target identification—everything you need to effectively uncover what lies hidden underground.

Multi-Flex - full control over detection

At the heart of the device is Multi-Flex technology, based on a broadband digital platform that ensures exceptional operational flexibility. You can choose from single frequencies of 5 kHz, 10 kHz,

15 kHz, and 20 kHz, allowing you to better tailor detection to specific objects. If you want maximum effectiveness in varied terrain, you can use the simultaneous multi-frequency mode, which enables effective detection of all types of targets, regardless of soil type.

Precise Identification and Intelligent Audio

The ACE APEX offers an advanced target identification system that significantly increases search efficiency. Five distinct audio tones make it easier to recognize the type of find, and large target identification numbers ensure readability in all conditions. The Iron Volume feature allows you to adjust the volume of ferrous objects without affecting non-ferrous metal signals, letting you focus on valuable finds. Additionally, Iron Audio technology helps distinguish difficult targets, such as bottle caps, while proportional audio makes it easier to detect weaker signals.

Extensive customization options

The device's design has been refined with your comfort in mind. Key functions are accessible via direct buttons, and other settings can be quickly adjusted in an intuitive menu. The detector offers up to 175 levels of ground balance, allowing you to precisely adapt its performance to various conditions—from highly mineralized soils to saltwater environments. You also have eight sensitivity and depth levels at your disposal, volume control, and high-resolution discrimination with 20 segments, including 8 for iron.

Ready for any field challenge

Six detection modes (Zero, Coins, US Coins with coin icons, Jewelry, Relics, and Custom) let you tailor settings to specific search types, while the pinpoint function enables precise target location. Thanks to Multi-Flex technology, the detector excels at searching for coins, relics, and jewelry, as well as in water, on the beach, or during gold prospecting. It's a versatile tool that adapts to your working style.

Wireless freedom and long battery life

The built-in Z-Lynk Wireless technology operates up to six times faster than Bluetooth, ensuring nearly instantaneous audio transmission without delays. You can search wirelessly, maintaining full

freedom of movement, and use the classic 1/8” headphone jack if needed. The built-in lithium-ion battery provides up to approximately 15 hours of operation, and charging is convenient via the micro-USB cable included in the set.

Modern Solutions

The clear LCD screen with black backlighting ensures good visibility of information in various lighting conditions, and the ability to update the software keeps the device up to date with new features. The ACE APEX is a device that meets your current needs but also grows with you, offering even greater capabilities in the future.

Included

- Armrest with mounting strap
- S-shaped shaft with control box mounted
- Coil
- Nut
- Screw
- Mounting washers
- Upper and lower shaft sections (connected)
- Micro-USB charging cable
- User manual

Manufacturer	GARRETT
Model	ACE APEX
Multi-Flex™ Technology	Yes
Single-frequency options	5, 10, 15, and 20 kHz
Multi-frequency options	Simultaneous multi-frequency operation and multi-frequency salt
Z-Lynk™ Wireless	Built-in

Quick target separation/recovery Yes

1/8" headphone jack	Built-in
Backlight	Built-in
Ground balance, automatic mode	High resolution, 175 points
Iron Audio™	Yes
Iron volume control	Yes
Iron discrimination segments	8
Volume control	Yes
Pinpointing	Yes
Water resistance	Yes
Search modes	6, including international and US coin modes
Large digital target identification display	Scale from 0 to 99
Audio identification levels	5 audio tones within a hybrid audio system combining binary and proportional tones
Coin discrimination	20 selectable segments
Sensitivity/depth adjustment	8 levels
Coin depth indicator	2" / 5 cm segments
Search coil	8.5" x 11" DD Raider™
Length (adjustable)	1.016 m - 1.35 m
Total weight	1.13 kg
Power source	Built-in lithium-ion battery; 7.5 Wh, 30 g
Battery status indicator	Yes
