

Anycubic Photon Mono 4 3D printer

Model: PM40BK0A-O

Manufacturer: ANYCUBIC

EAN: 6974662351036

Product Code: 1092142

R5,272

Anycubic Photon Mono 4 3D printer

The Anycubic Photon Mono 4 is an easy-to-use 3D printer that will be suitable for both beginners and more advanced users. With 10K resolution and even lighting, it allows you to print accurate, detailed models such as figurines, ornaments and everyday objects. It also offers a workspace of 153.4 x 87 x 165 mm and is compatible with Photon Workshop software.

A wealth of detail

The printer stands out with a resolution of 9024x5120 and a precision of 17 µm. This allows it to create incredibly detailed models. It will prove itself wherever the highest print quality and exceptional accuracy are required!

Uniform illumination

The Photon Mono 4 uses the LighTurbo matrix light source, which provides stable, even illumination. This avoids the effect of visible layers and rasterization. As a result, finished models impress with smooth surfaces and a high level of detail!

The workspace you need

The printer provides a working space of 153.4 x 87 x 165 mm and allows you to print models with a maximum volume of 2.2 liters. This makes it perfect for both ordinary daily tasks and larger projects! With its help you can easily print all kinds of accessories and decorations.

User-friendly solutions

Forget about complicated printer setup. The Photon Mono 4 is assembled, calibrated and tested before shipment, so it will be ready to work almost immediately after taking it out of the package. No more wasting time or risking making a mistake! The device has also been equipped with an improved working platform, which prevents distortion of models and makes them easier to take off. What's more, in case of an unexpected power outage, the printer will automatically resume work when everything is back to normal. Note: leveling is required before printing.

Additional capabilities

Install Anycubic Photon Workshop software to conveniently work on models, create props and more. Also take a look at the Makeronline library, where you'll find thousands of projects by other users from around the world. It's a great space to exchange experiences and share ideas!

Included

- Printer
- Platform for printing
- Resin vat
- Scraper x2
- Allen wrench set
- Leveling paper
- Anti-scratch kit

- USB disk
- Power cord
- Gloves
- Funnel

Manufacturer	Anycubic
Name	Photon Mono 4
Model	PM40BK0A-O
Weight	4 kg
Dimensions	230 x 235 x 391 mm
Screen	7-inch LCD screen
LCD resolution	10K
Light source	Light source with improved parallel matrix
Light intensity	Approximately 3000 $\mu\text{W}/\text{cm}^2$

Illumination uniformity 80-90%

XY resolution	17 x 17 μm
Leveling	4-point manual leveling
Film	FEP
Printing speed	Standard resin: up to 50 mm/h; High Speed Resin: up to 70 mm/h;
Layer height	0.03-0.15 mm
Working space	153.4 x 87 x 165 mm
Slicer	Photon Workshop
File transfer	USB
