

LANBERG Patch Panel Blank 48 Port 1U 19inch FTP For Keystone Modules Black

Model: PPKS-1248-B

Manufacturer: LANBERG

EAN: 5901969439311

Product Code: 1092213

R821

The Lanberg 48-port patch panel provides an effective solution for managing network cabling. Built with shielded features that enhance data transmission and minimize interference, this sturdy patch panel is crafted from galvanized steel for durability and reliability. With a compact height of 1 rack unit and a standard 19-inch rack size, it fits seamlessly into existing setups while optimizing space for cabling organization.

Each port on the panel is numbered for simplified identification and efficient wiring, making installation straightforward. Furthermore, the inclusion of a grounding point and screws ensures you have everything needed for a secure mount. The operational temperature range of -10°C to 60°C makes it suitable for various environments, ensuring reliable performance in different conditions.
