

LANBERG Patch Panel Blank 48 Port 1U 19inch FTP For Keystone Modules Grey

Model: PPKS-1248-S

Manufacturer: LANBERG

EAN: 5901969439328

Product Code: 1092214

R821

The Lanberg patch panel offers a solid and efficient solution for organizing network connections. With 48 shielded ports, each numbered for quick identification, this patch panel ensures streamlined connectivity in any rack setup. Constructed from durable galvanized steel, it withstands a range of operating temperatures from -10°C to 60°C, making it suitable for various environments. Additionally, this patch panel includes a grounding point and comes with screws and a ground cable, ensuring a comprehensive installation package for enhanced connectivity and safety. Mountable in standard 19-inch racks, the Lanberg patch panel uses FTP for keystone modules and helps keep wiring neat and orderly. Its compact height of 1 rack unit makes it an ideal choice for maximizing space while maintaining a professional appearance. This product serves as a reliable choice for both home and commercial networking needs.
