

LANBERG PCI Express x1 card 2X USB-C 3.2 gen 2X1 low profile

Model: PCE-UC3-002

Manufacturer: LANBERG

EAN: 5901969448023

Product Code: 1092220

R942

Lanberg USB 3.2 Gen 2 PCIe adapter provides a simple way to add two high-speed USB-C ports to a desktop system for external storage, peripherals, and modern devices. Designed as a low-profile plug-in card, it brings wired USB 3.2 Gen 2 connectivity without changing the host setup, helping maintain fast data transfers for backup, media, and file work.

The card uses an ASMedia ASM1142 controller to deliver reliable USB 3.2 Gen 2 performance over a PCI Express x1 interface and includes two 24-pin USB-C connectors. The adapter is built to operate across a broad temperature and humidity range, making it suitable for typical desktop environments where consistent connectivity and compact install size are important.
