

Canon LS-125KB calculator Desktop Basic Blue

Model: 80-100003

Manufacturer: CANON

EAN: 4549292238419

Product Code: 1092576

R1,131

The LS-125KB Calculator is a versatile 12-digit calculator that covers all of your basic functions. The calculator is designed to be convenient, coming with dual power, meaning that it is powered by both a battery and solar power. The calculator offers grand total memory within a slim body, while a choice of vibrant colour lets you express your personality. Finally, it is designed using recycled plastic and a plant-based renewably sourced biopolymer called NuPlastiQ, which makes it an eco-friendly choice. The calculator does not have a display shield, meaning there is less plastic in its body as well.
