

Microconnect MC-PCIEX4- 82576-D not categorized

Model: MC-PCIEX4-82576-D

Manufacturer: MICRO CONNECT

EAN: 5715328014633

Product Code: 1092895

R1,500

The Intel 82576 Dual-Port Gigabit Ethernet NIC is a compact, high-efficiency network adapter designed for enterprise, embedded, and small form factor systems. Powered by the Intel JL82576EB chipset, and using a PCIe x1 interface, it provides reliable dual-port Gigabit Ethernet connectivity over copper with advanced networking and virtualization support.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
