

TP-Link VIGI C340S Bullet IP security camera Outdoor 2688 x 1520 pixels Wall

Model: VIGI C340S(4MM)

Manufacturer: TP-LINK

EAN: 4895252500790

Product Code: 1093215

R6,579

VIGI ColorPro Night Vision

VIGI’s industry-leading ColorPro Night Vision technology enables its cameras to pierce the night and see everything in fine detail.
By adopting this best-in-class technology, VIGI C340S can provide 4MP high resolution and capture more vivid full-color images
in extreme low-light conditions.

Better than the Naked Eye

Featuring high low-light sensitivity, VIGI’s ColorPro Night Vision produces unparalleled colors along with amazingly crisp images in
ultra-low light conditions, which can’t be achieved with natural eyesight.

Beyond IR, Beyond Full-Color

Images captured by IR cameras or traditional full-color cameras will suffer from digital noise and the loss of detail. VIGI’s ColorPro Night
Vision cameras reveal excellent image details even in extreme darkness.

Less Light Pollution

Bright illumination is required by conventional full-color cameras to capture images at pitch-dark hours. But VIGI's ColorPro Night Vision cameras
delivers true color and bright imaging even in extremely low light with no spotlights needed, greatly reducing environmental light pollution.

Human & Vehicle Classification

Integrated AI chips support advanced algorithms to distinguish humans and vehicles from other objects. You can flexibly customize alarm rules to match your monitoring needs and receive more accurate event notifications.

Comprehensive AI Detection with Pre-Set Rules Supported

By setting the detection rules in advance, VIGI AI-powered cameras can accurately capture various abnormal events. This will greatly reduce false alarms and cover your specified monitoring needs in different scenarios.

Face Recognition

VIGI’s advanced built-in face recognition algorithm enables cameras to intelligently capture faces, extract facial features, and form unique facial data. By comparing the facial data with a face library, quickly match a human face, efficiently reducing the risk of unauthorized access.

People & Vehicle Analytics

Quickly find people and vehicles of interest using a series of attributes.

People Analytics

Filter people of interest by various attributes, such as gender, hair length, and clothing, allowing you to improve search efficiency.

Vehicle Analytics

Identify and search for vehicles of interest based on vehicle color and type for targeting meaningful events in a short time.

Active Defense

Warn potential intruders instantly with sound and light when abnormal events are detected.

Two-Way Audio

With voice intercom support, carry two-way conversations while watching your feed from anywhere.

PoE & IP67

Outdoor PoE connection makes your wiring remarkably easy. Reliable IP67 enables stable outdoor performance.

One system. Full security.
Run your business with peace of mind.
The VIGI professional surveillance system by TP-Link is dedicated to protecting the business you've worked hard to build — whenever, wherever. Our outstanding functions, reliable quality guarantees, and simplified installation work together to ensure your business stays safe and sound.
