IsEasy LI3-17 induction cooktop

IsEasy LI3-17 is a modern induction cooktop designed for everyday cooking with maximum control and comfort. With three heating zones with different wattages, a Booster function and 9 control levels, it allows you to prepare food quickly and with perfect precision. The compact built-in design will fit perfectly into the kitchen countertop, saving space. The hob works with induction-compatible pots and pans.

High power and booster function

The hob offers three cooking fields: 1200 W (1400 W in Booster mode), 1600 W (1800 W in Booster mode) and 2000 W (2600 W in Booster mode). The Booster function allows you to instantly heat food or boil water in less time.

Precise cooking

With 9 power levels, you can adjust the temperature to suit the type of food you are preparing. There's also a 99-minute timer that allows you to precisely set the hob's running time.

Intuitive touch control

The touch control panel allows you to quickly and conveniently start the hob, change the heating power or set the timer. All it takes is a few touches!

Safety of use and quiet operation

A child lock and residual heat indicator ensure safe use. In addition, built-in fans ensure fast heat dissipation and cooling of the cooking fields, and the Low Noise system (noise reduction technology) reduces noise - don't worry about annoying noise.

Easy cleaning and built-in capability

The smooth surface of the hob is easy to care for - just wipe it with a damp cloth to restore its perfect appearance. What's more, the appliance's dimensions are 59 x 52 x 5.8 cm, so you can build it into a 49.5 x 56.6 cm recess. The stylish, minimalist design will fit perfectly into the decor of any kitchen.
