Fanttik E1 NEX Electric Screwdriver + Bit Set

The Fanttik E1 NEX Workstation is an integrated tool kit designed for precision electronics repairs. It combines an electric screwdriver, 64 magnetic bits, and 12 types of service tools, creating a complete workstation in a compact form. The design, inspired by the “workstation” concept, allows for convenient organization of your work and quick access to all components of the set.

Designed for Precision Repairs

The kit was designed for precision repairs of electronic devices such as smartphones, laptops, watches, PlayStation and Nintendo Switch consoles, and cameras. The electric screwdriver offers two torque levels: 0.05 N·m and 0.2 N·m, as well as a manual mode that allows tightening up to 3 N·m. A speed of 200 rpm and built-in LED lighting make it easier to work in hard-to-reach places, while the

retractable mechanism enhances ease of use and safety during operation and storage.

64 S2 bits and a service tool set

The set includes 64 magnetic bits made of chrome-vanadium steel with a hardness of 60 HRC, resistant to wear, corrosion, and oxidation. These are complemented by 12 service tools, including among others tweezers, openers, pry bars, extensions, suction cups, and an antistatic wrist strap. The entire set is designed to enable efficient servicing of devices such as smartphones, laptops, game consoles, and cameras.

Magnetic Organization and Quick Readiness

The storage compartment's design stabilizes the tips and prevents them from accidentally falling out, while clear labels make it easy to quickly find the right tools. The integrated magnetic pad allows you to set up your workspace in an instant—simply select a bit and get to work. The entire system is designed to reduce setup time and streamline every stage of the repair process.

Ergonomic design and mobile workstation

A hinge that allows for 180° rotation lets you position the kit in a convenient spot or hang it in your workspace, which increases comfort during device servicing. Its compact form and thoughtful organization make the set ideal for both home workshops and mobile work.
