Lexar Dual Type-C and Type-A USB 3.1 Flash Drive 256GB

The Lexar JumpDrive Dual Drive D400 USB 3.1 is a portable memory stick that combines convenience and versatility. With dual USB Type-C and Type-A connectors, users can easily transfer data between different devices - from smartphones and tablets to laptops and desktops. Regardless of the operating system - Android, macOS or Windows - the flash drive ensures compatibility and smooth operation.

Fast data transfer

Thanks to the USB 3.1 standard and read speeds of up to 130 MB/s, the JumpDrive D400 enables lightning-fast file transfers. Copying large documents, photos or videos takes just a few seconds, which significantly improves daily work. In addition, the device is backward compatible with USB 3.0

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

and USB 2.0 ports, making it suitable for use on older computers and laptops.

Data security with Lexar DataShield

The flash drive is equipped with Lexar DataShield technology, which enables the creation of encrypted password-protected folders. This means that the user can safely store confidential files, and once they are deleted, they cannot be recovered. This solution is particularly useful for professionals and those concerned about protecting private data.

Compact size and large capacity

With a capacity of 256 GB, the JumpDrive D400 allows you to store thousands of photos, hundreds of documents or HD videos. Its compact size means you can always have it at hand, without worrying about taking up space in your pocket or bag. It is the ideal solution for people who need a reliable portable memory for everyday use.
