ZEUSLAP Z14Lite 14" Portable Monitor

The ZEUSLAP Z14Lite 14" portable monitor is a lightweight display with a resolution of 1920×1200 (WUXGA) and a 16:10 aspect ratio, offering 100% sRGB coverage and 16.7 million colors (8-bit). With a brightness of up to 400 cd/m², a 1000:1 contrast ratio, and an IPS panel with wide 178° viewing angles, it ensures a comfortable viewing experience in various conditions. The model is equipped with USB-C 3.1 and mini HDMI ports, making it compatible with laptops, smartphones, and gaming consoles. The whole unit is housed in a slim chassis measuring 311 × 210 × 10 mm and weighing approximately 580 g, which highlights its portable nature.

A display tailored for everyday use

The 16:10 IPS panel provides more vertical workspace than the standard 16:9 aspect ratio, making it easier to work with documents, web browsers, or spreadsheets. The 1920×1200 resolution delivers a crisp, detailed image that works well for both work and entertainment. 100% sRGB coverage ensures natural color reproduction, making the monitor well-suited for everyday photo and video editing. It's worth noting, however, that the 74% NTSC rating refers to the NTSC ratio, meaning this level is suitable for general use rather than advanced graphic design work.

Brightness and Comfort

With a brightness of 400 cd/m², the screen remains readable even in brighter rooms or when working outside the office. This eliminates the need to max out the backlight, enhancing user comfort. The 1000:1 contrast ratio improves detail visibility, especially in scenes with varied lighting. Additionally, the wide 178° viewing angles ensure the image remains clear regardless of your position, which is important for teamwork or presentations.

Mobility That Makes a Difference

Its compact dimensions and light weight of approximately 580 g mean the monitor fits easily into a bag alongside a laptop. This translates to convenience during business travel, remote work, or when using an additional screen in various locations. The slim, approximately 1 cm thick chassis makes it easy to transport and store. At the same time, the metal construction increases durability, which is essential when frequently moving the equipment.

Connectors and Power in Practice

The monitor is equipped with two USB-C 3.1 ports, which allow for video transmission and power delivery via a single cable, simplifying daily use. An additional mini HDMI port enhances compatibility with consoles and computers. The device can be powered directly from a laptop's USB-C port, but with weaker power sources, the included 5V 3A charger will be necessary. This solution offers flexibility and allows you to adapt the power supply to a specific situation.

Versatile Use

The ZEUSLAP Z14 Lite works well as a second screen for a laptop, offering extended or mirrored display modes, which makes it easier to work with multiple windows simultaneously. The ability to connect a smartphone via USB-C allows you to create a mobile desktop-style workstation. The monitor is also compatible with gaming consoles, so you can use it as a portable gaming screen. Built-in speakers and a 3.5 mm audio output enhance convenience without the need to connect additional devices.

Included

- ZEUSLAP Z14 Lite monitor
- AC adapter
- USB-C to USB-C cable
- Mini HDMI cable
- USB to USB-C cable
- User manual
