ZEUSLAP P16 16" Portable Monitor

The ZEUSLAP P16 portable monitor is a lightweight and compact display with a resolution of 1920×1200 (WUXGA) in a 16:10 aspect ratio, featuring an IPS LCD panel with a brightness of up to 400 nits, a contrast ratio of 1500:1, and 100% sRGB coverage. The screen displays 16.7 million colors (8-bit) and offers 74% DCI-P3 color gamut coverage, resulting in more natural and vivid colors. The monitor weighs just 692 g, and its slim design, measuring 355 × 224 × 10 mm, makes it easy to carry. Thanks to USB-C and mini HDMI ports, it works with laptops, smartphones, PCs, and consoles such as the Nintendo Switch, PS4/PS5, and Xbox.

An image that makes a difference

The IPS panel provides wide viewing angles, meaning the image remains clear even when viewed from the side. The 1920×1200 resolution offers more workspace than standard Full HD, making it easier to work with multiple windows simultaneously. A brightness of 400 nits improves comfort in

well-lit environments, while a 1500:1 contrast ratio allows you to better distinguish details in darker scenes. Additionally, 8-bit color depth and DCI-P3 coverage make the image more similar to what you see on professional screens.

Mobility You Can Actually Feel

Its light weight and slim design make it easy to take the monitor with you to work, school, or on the go. At 692 g, it's light enough not to weigh down your backpack. This means you don't need to carry extra accessories, simplifying your setup. Its compact dimensions allow you to use the monitor comfortably even on smaller desks or in tight spaces.

Wide compatibility and easy connection

Two USB-C ports and a mini HDMI port offer great flexibility for connecting various devices. In many cases, a single USB-C cable is enough to transmit the image and power the monitor simultaneously, reducing the number of cables. Support for modes such as DEX allows you to use your smartphone as a work hub, which can be useful outside the office. This makes the monitor ideal both as an additional screen for a laptop and as a standalone tool for mobile work.

Versatile Use

The ZEUSLAP P16 performs well in various scenarios—from office work to watching movies and console gaming. A 3ms response time and a stable 60Hz refresh rate ensure a smooth image without distracting lag. The ability to connect to consoles allows you to set up a mobile gaming station virtually anywhere. It's a solution that combines the functionality of an office monitor with the convenience of portable equipment.

Thoughtful design

The metal chassis increases durability and improves heat dissipation during operation. Built-in speakers let you quickly play multimedia without additional equipment, which is convenient when traveling. Support for the VESA 75×75 mm standard allows for mounting on a bracket if you want to use the monitor as a desktop display. Additional features, such as a control knob and a 3.5 mm audio port, make daily use easier and allow for quick adjustment of settings.
