Manufacturer: DEERRUN

EAN: 6980051300097

Product Code: 1094691

R13,552

DeerRun A1 Urban Folding Electric Treadmill (Black)

The DeerRun A1 Urban is a folding electric treadmill that allows you to train comfortably at home while offering performance suitable for more intense workouts. The machine reaches speeds from 1 to 16 km/h, features a running deck measuring 420 × 1120 mm, and has a maximum weight capacity of 159 kg. An additional advantage is the ability to set the incline to 6%, which increases the intensity of your workout and allows you to burn up to 30% more calories than when running on a flat surface. After your workout, the treadmill can be folded down to compact dimensions of 1355 × 611 × 176 mm, making it easy to store.

More Effective Training

One of the most important features of the DeerRun A1 Urban is the 6% incline, which allows you to increase the physical demands on your body without having to increase your running speed. During a 30-minute workout on a flat surface, you can burn about 150 kcal, while at a 6% incline, this value increases to about 195 kcal. This means up to 30% greater calorie-burning efficiency, which helps you achieve your fitness and weight management goals faster.

Wide speed range for various activities

With a speed range from 1 to 16 km/h, the treadmill is suitable for leisurely walks, training walks, and dynamic runs alike. This allows users of all fitness levels to use the machine, adjusting the pace to their own abilities and training plan. The large running belt surface ensures freedom of movement and comfort during daily workouts.

Space-saving foldable design

The DeerRun A1 Urban model features a foldable design that minimizes the space it occupies after a workout. When folded, the device is only 176 mm high, making it easy to store in an apartment. Despite its compact dimensions when folded, the device retains a full-size running surface and a stable structure during use.

Robust construction for daily workouts

The treadmill is equipped with a motor with a peak power of 2610 W and weighs 36.1 kg, ensuring stability during exercise. A maximum weight capacity of 159 kg allows for comfortable use by a wide range of people. Additionally, the phone holder allows for convenient use of mobile devices during your workout.

Included

- Treadmill
- Phone holder
- Safety key
- Power cord
- Remote control
