R3,582

Darkflash DQX90 computer case (black)

Darkflash DQX90 is an ATX standard computer case that features glass side and front panels, exposing the computer's interior and allowing the use of ARGB backlighting to highlight all components. Thanks to a well-thought-out ventilation system, supporting the installation of up to 10 fans and coolers up to 360 mm, the product guarantees excellent cooling, allowing you to maintain optimal temperatures even during intensive work. There will be 7 PCI slots at your disposal. It is possible to mount SSD and HDD drives.

Convenient access to the interior

The Darkflash DQX90 chassis is equipped with the "Fast Detach" system, which allows quick and easy removal of the front, top and side panels without the need for tools. The snap-in mechanism

allows convenient access to the computer's interior, making it easy to install components, maintain and modify the hardware.

Exposure of components

The DQX90 is distinguished by two panels made of tempered glass, located on the front and sides of the case. They allow you to get a full view of the computer's interior and impressively present backlit components and cable arrangements. ARGB backlighting emphasizes the gaming character of the kit, giving it an individual style.

Efficiency and quiet operation

The product offers an extensive cooling system, allowing you to install 9 or 10 fans in 140mm or 120mm sizes respectively in various locations - on the top, sides, bottom and rear of the case. The case also supports water coolers up to 360 mm, allowing optimal cooling of all components. The air intakes are protected by magnetic dust filters that protect the interior from dirt, while ensuring free airflow and long component life.

Versatile configuration options

Enjoy flexibility when it comes to mounting graphics cards and drives. The chassis offers 7 PCI slots that allow the installation of graphics cards up to 470 mm in both landscape and portrait orientations, allowing you to customize your configuration to suit your preferences. The product also offers 6 drive bays, including 4 for 2.5" SSDs and 2 universal bays compatible with 2.5" SSDs or 3.5" HDDs.

User comfort

The front panel of the Darkflash DQX90 chassis features easily accessible ports - one USB-C, 2x USB 3.0 and an HD Audio input. This allows you to conveniently connect peripherals and enjoy high-speed data transfer. The well-thought-out layout of the I/O ports and the aesthetically designed front panel provide a high level of comfort for everyday use.
