

Darkflash Computer Radiator DN- D360 WHITE

Model: DN-D360 WHITE

Manufacturer: DARKFLASH

EAN: 4711527000522

Product Code: 1095651

R2,791

Darkflash Computer Radiator DN-D360 WHITE

The Darkflash DN-D360 is a powerful 360mm water cooler that ensures stable CPU operation at low temperatures. It features a copper water block and an aluminum heatsink to efficiently dissipate heat, which is essential when the system is heavily loaded. Three 120mm fans with hydraulic bearings, PWM control and ARGB backlighting guarantee optimal airflow and quiet operation. An LCD display allows you to monitor CPU and RAM temperatures, while IIR+EPDM tubes ensure high temperature resistance and design durability.

Compatibility with Intel and AMD processors

The DN-D360 provides broad compatibility with Intel (115x, 1200, 1700) and AMD (AM3, AM4, AM5) processor sockets, making it suitable for both older and latest configurations. The cooling's

versatility makes it an investment for many years, regardless of future computer upgrades.

LCD display and control software

The water block features a 2.1-inch LCD display, offering 480x480 px resolution and 16.7 million colors. It provides information about the temperature of the processor (CPU), RAM and pump speed, allowing you to monitor the parameters directly on the cooling. This makes it easy for you to adjust the system to your needs. The Darkflash product also works with dedicated software, which allows you to fully control cooling settings and monitor system performance. Thanks to the intuitive interface, you can adjust the speed of the fans and monitor the temperature of the CPU and other components.

Efficient and quiet operation

Equipped with a three-stage motor, the pump achieves a cooling liquid flow rate of 1.6 l/min, ensuring efficient heat dissipation with minimal noise. As a result, you can enjoy top cooling performance without unnecessary noise.

Efficient heat dissipation

The water block is made of copper, which guarantees excellent thermal conductivity and speeds up the process of cooling the processor. Precise copper processing not only ensures cooling efficiency, but also greater durability and stable operation, resulting in longer component life.

Three fans with ARGB

The Darkflash DN-D360 cooling features three high-performance 120mm fans with PWM function, which automatically adjust their speed from 800 to 1,800 RPM depending on the CPU load. The fans use hydraulic bearings, extending their lifespan to 40,000 hours and providing quiet operation with a maximum airflow of 61.7 CFM. ARGB backlighting allows you to synchronize colors and visual effects with other components.

Robust design

The heatsink is made of high-quality aluminum, which ensures efficient heat dissipation and is also resistant to damage. IIR+EPDM tubes are characterized by high flexibility and resistance to high temperatures and pressure, which contributes to the long life and reliability of the cooling even under heavy use.

Included:

- Darkflash DN-D360 water cooling (includes heatsink, water block and pump)
- 120mm fan with ARGB x3
- Mounting plate
- Intel bracket
- AMD bracket
- Screws for heatsink x12
- AMD spacers x4
- Mounting screws x4
- Intel spacers 17xx x4
- Intel spacers 115x/1200 x4
- DP5 thermal paste
- Thermal paste applicator

Manufacturer	Darkflash
Model	DN-D360
Cooling type	Water
Compatibility with AMD processors	AM5 / AM4 / AM3
Compatibility with Intel processors	115x / 1200 / 1700
Heatsink size	397 x 120 x 27 mm
Heat sink material	Aluminum
Number of fans	3

RPM control **PWM**

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Speed	800 - 1800 RPM $\pm$ 10%
Bearing type	Hydraulic
Fan size	120 x 120 x 25 mm
Fan diameter	120 mm
Total number of fans	3
Pump connector	4-pin PWM
Backlighting	ARGB
Backlight connector	3-pin ARGB
Supply voltage	12V
Fan backlighting	ARGB
MTBF lifetime	40 000 h
Additional information	LCD display with 480x480 px resolution, 3-stage pump motor, IIR+EPDM tubes
Height	59 mm
Width	86 mm
Depth	72 mm
Included accessories	Mounting plate, Intel bracket, AMD bracket, 12x heatsink screw, 4c AMD spacers, 4x mounting screw, 4x Intel 17xx spacers, 4x Intel 115x/1200 spacers, DP5 thermal paste, thermal paste applicator
Net weight: 1550, Box length: 46,50, Box width: 21,00, Box height: 13,00, Gross weight: 2360, GPSR Link: https://psr-assets.innpro.pl/gaming/sg_gaming_computer_cooling.pdf
