DarkFlash DS950 computer case with display (black) + 6 fans

Do you dream of a PC that stands out from the crowd and attracts attention? Use the Darkflash DS950 computer case with display! The 270° panoramic design with two tempered glass panels allows you to showcase your components, and the 6-inch IPS screen adds an extra element of personalization – you can display system information or your own photos or videos on it. Give your configuration a unique character! What's more, the spacious interior measuring 450 × 222 × 465 mm can easily accommodate ATX, Micro-ATX, and ITX motherboards, as well as modern components, including graphics cards up to 400 mm long and CPU coolers up to 180 mm high. This allows you to easily build a powerful computer for gaming or work. The set also includes 6 fans.

270° panoramic design

The case is equipped with two transparent tempered glass panels that provide a panoramic view of the interior. The vertical-profile-free design allows you to showcase your computer components in an interesting way – for example, a set of RGB-backlit fans or water cooling with a display. Create an original configuration and show everyone that you can also be creative when building a PC!

Integrated IPS display - express yourself

A distinctive feature of this case version is the built-in 6-inch IPS screen with a resolution of 480 × 960. You can display your own content (in JPG, PNG, or MP4 formats) or selected system information, such as CPU and GPU temperatures. Express yourself and be sure that your PC is one of a kind! It's a great option for gamers, streamers, and more.

Efficient ventilation and extensive cooling capabilities

The DS950 offers an extensive ventilation system based on dense meshes that are responsible for effectively dissipating heat from inside the case. What's more, the design allows for the installation of up to 9 fans or 240/280/360 mm water cooling in the upper part. This prevents the computer from overheating, even during intensive work.

Space for powerful components

Create a configuration that perfectly suits your needs. The DS950 case allows for the installation of graphics cards up to 400 mm in length and CPU coolers up to 180 mm in height. There is also space for one SSD or two HDDs, allowing for flexible data storage configuration. Also noteworthy is its compatibility with ITX, M-ATX, and ATX motherboards. The spacious interior allows for easy installation and replacement of components, so you can easily build a powerful computer for gaming or work.

Convenient access to ports and buttons

The case is equipped with various connectors that are useful in everyday work. You have USB-A 2.0, USB-A 3.0, and USB-C 3.2 Gen 2 ports at your disposal, allowing you to transfer files at speeds of up

to 10 Gbit/s. There is also an HD Audio jack, a reset button, and a power button.

Quick panel removal and dust protection

The DS950 is designed to provide convenient access to the interior and allow for easy upgrades. The side panels use a snap-fit quick-release mechanism that allows them to be removed efficiently without the use of tools, and additional hand-tightened screws increase the stability of the structure. The whole is complemented by magnetic dust filters, which limit the ingress of contaminants into the interior and make it easier to keep the components clean.

Manufacturer	DarkFlash
Model	DS950V
Case type	Midi tower
Side panel	Tempered glass
Motherboard standard	ATX / M-ATX / ITX
Power supply standard	ATX
Internal drive bays	SSD x1 / HDD x2
