EcoFlow EV-stream Delta Pro 3 adapter

The EcoFlow EV X-Stream adapter allows you to charge your DELTA Pro 3 power station with a Level 2 electric car charging station. It offers power up to 7200 watts and is compatible with SAE J1772 connectors. You can use it almost anywhere in the world without any problem! It's ideal for DELTA Pro 3 station users who want to charge quickly and conveniently at home or on the road.

Charging speed you can count on

With AC charging support of up to 7200 watts, the adapter allows you to quickly prepare your DELTA Pro 3 station for further use - whether in the garage or at a stop during a trip. It's a time-saver and a convenience, especially when you need an efficient power source in the field.

Wide compatibility

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

itworkup.co.za | sales@itworkup.co.za | +27 (11)541-9950

The adapter supports a Type 1 connector (SAE J1772), which means you can connect the DELTA Pro 3 station to thousands of Level 2 chargers available worldwide. This makes it easy to get ready even for longer trips!

Compact design and solid workmanship

The cable length of about 49 cm makes the adapter very easy to store and transport. Thanks to its compact design, the accessory will fit even in the glove compartment of your vehicle, and the durable housing ensures safety during daily use.
