

Microconnect XLRMF20 KVM cable 20 m

Model: XLRMF20

Manufacturer: MICRO CONNECT

EAN: 5711045971815

Product Code: 1096083

R1,216

The XLRMF20 XLR connection cable provides a reliable and high-quality audio connection over an extended 20-meter length. Ideal for professional audio applications, this cable ensures minimal signal loss and interference, delivering pristine sound for microphones, mixers, amplifiers, and other audio equipment. Built with durable materials and robust connectors, the XLRMF20 is designed for long-lasting performance in demanding environments, whether in a studio, on stage, or in a broadcast setting. As a leading provider of connectivity solutions for over 20 years, MicroConnect ensures this cable meets stringent European quality standards, offering premium performance at a fair price for all your audio needs.
