

Conceptronic BIAN11B Dual Interface Smart ID Card Reader

Model: BIAN11B

Manufacturer: CONCEPTRONIC

EAN: 4015867243589

Product Code: 1098238

R1,438

The Dual Interface Smart ID Card Reader is designed to provide secure and versatile authentication for modern digital services. Supporting both contact and contactless smart ID cards, it offers broad compatibility for government, enterprise and personal use. It is fully compatible with eID, DNIe and other national ID cards, making it ideal for online tax filing, online banking and secure identity verification.

Use of national ID cards or banking cards may require installation of the corresponding middleware provided by the issuing authority. Ensuring that the middleware is up to date allows the reader to function properly with each supported card type.

With simple Plug and Play installation, the Dual Interface Smart ID Card Reader integrates effortlessly into your workflow, providing a dependable and secure solution for everyday digital authentication tasks.
