Elevate your home entertainment with the QS750F soundbar, designed to deliver immersive sound with precision. Featuring wireless Dolby Atmos and rear speakers for an incredible 3D surround sound experience. With 10 built in speakers, expertly tuned by the award winning Samsung Audio Lab.

Convertible Fit

The speakers are designed to function as both front- and up-firing channels, automatically adjusting their output direction based on the soundbar's placement.

160W Compact Subwoofer

Feel the excitement and immerse yourself in onscreen action with amplified bass levels from our smallest subwoofer. Experience dynamic sound and create the mood that every blockbuster, show and sporting moment deserves.

Wireless Dolby Atmos

Wireless 3D cinematic sound

Elevate your sound experience easily with wireless freedom and 3D surround sound from Dolby Atmos. Amp up your home entertainment with truly cinematic sound levels with the simplest, seamless set-up. Connect cable-free and enjoy.

Samsung Q-Symphony

When sound comes together

Boost your viewing experience with integrated sound from your TV and soundbar, effortlessly synced with AI. Relax and let Q-Symphony handle the rest. Elevate your audio, perfected by Samsung.

SpaceFit Sound Pro

Sound that fits your space

SpaceFit Sound Pro optimises audio for your space using a built-in-microphone to automatically adjust the soundbar and subwoofer. Enjoy perfected sound, tailored to your room every time.

Adaptive Sound

Tailored sound, in real-time

Experience the power of intelligent adaptive sound that upscales and optimises the action you're watching. Enjoy big games with enhanced crowd and commentary levels, hear the depth of every

blockbusting blast and never miss a word of crisp dialogue, even in whispered scenes.

Game Mode Pro

Ultimate gaming sound

Level up your gaming experience. Hear the roar of a sports car on the open road and opponents sneaking up behind you with pinpoint directional sound. It's all configured automatically to help you make most of your gaming moments.

Moderate Bass

Big action, less space

No space for a subwoofer? No problem! The ultimate movie experience with deep bass is delivered all from the soundbar. Enjoy a sleek, effortless setup with cinematic sound and deep, powerful bass to enhance your living room experience.

Personal Listening Mode

Private audio

Late at night? Concerned about waking your household? No need to sit in the lounge with your headphones on, now you can use your rear speakers to direct the sound straight into your ears. Sit back, relax and enjoy your personal listening experience.

Party Sound Grouping Mode

Music all around

Boost your music by synchronising your rear speakers to play sound from all directions. Maximise your audio power by using the rear speakers to pump up the volume in harmony with the soundbar and get the party started!

Voice Assistants and Wireless Music Streaming

Simply Music

With Wi-Fi connectivity, this soundbar supports all the platforms that make streaming your favourite music effortless. Google cast built-in provides seamless set-up so you can enjoy more time listening to the tunes you love.

HDMI eARC

A superior 3D sound experience

Other HDMI ports can't support the full Dolby Atmos or DTS:X experience. But with this cinematic soundbar, you can kick back, unwind, and savour the original, high-quality audio delivered through HDMI eARC (Audio Return Channel) for the ultimate surround sound experience.

SmartThings App

Soundbar made smart

Link your soundbar with multiple devices with SmartThings built-in compatibility, then control them all with your TV or smartphone. Create smart automations to make life easier - just use your voice to close the blinds, dim the lights, and power up your TV and soundbar for the ultimate movie night.

Wi-Fi and Bluetooth Connection

Effortless connectivity

Say goodbye to tangled wires! Enjoy a seamless audio experience with wireless Wi-Fi or Bluetooth connectivity—no messy cables, no hassle. Place your soundbar anywhere in the room and stream music directly from your favourite apps.

One Remote Control

Ditch the clutter

Simplify your life with a single remote. Samsung's Smart Remote lets you effortlessly control multiple connected devices with just one click. It's not just for your soundbar; it can link up with various compatible devices from your TV to your set-top box.

Samsung Audio Lab

Audio experts

Tested and refined at the California Audio Lab, where expert engineers leverage advanced acoustic technologies and cutting-edge computer modelling to deliver perfectly balanced, immersive sound.
