Philips N-110 720p Mini Projector (Black)

The Philips N-110 is a compact multimedia projector that combines native HD resolution of 1280 x 720 pixels with wireless screen mirroring via dual-band 2.4 and 5 GHz Wi-Fi. It can display an image up to 65 inches in size while maintaining sharp details and natural 16:9 aspect ratios. A 3000:1 contrast ratio, 100-lumen brightness, and a modern LED light source with a lifespan exceeding 30,000 hours make the device ideal for watching movies, TV shows, photos, and presentations.

HD image on a large screen

The projector offers a native 720p HD resolution, making movies and TV shows look exceptionally detailed. The Philips N-110 also supports signals up to Full HD 1920 x 1080 pixels, allowing you to easily connect modern video sources. The short-throw projection system enables an image size of up to 65 inches at a distance of approximately 212 cm from the wall or screen.

Wireless screen mirroring via Wi-Fi

The device supports wireless image transmission from smartphones, tablets, and computers. Thanks to compatibility with iOS, Android, Mac, and PC systems, you can conveniently share movies, photos, presentations, and other content without using cables. Dual-band 802.11a/b/g/n/ac Wi-Fi on the 2.4 GHz and 5 GHz bands ensures a more stable connection and smoother content playback.

Precise image adjustment

Manual focus adjustment and vertical keystone correction allow you to quickly achieve a clear and properly proportioned image. An additional digital zoom function ranging from 75% to 100% lets you adjust the projection size without having to reposition the device. This is a practical solution when the projector is in a fixed location or setup options are limited.

Built-in media player

The integrated media player allows you to play videos, music, and photos directly from USB drives, external hard drives, and microSD cards. The projector supports popular video formats such as MP4, AVI, MKV, RM, and RMVB; audio files including MP3, FLAC, WAV, and AAC; and photo formats like BMP, PNG, and JPEG. This means your favorite content is always at your fingertips—without needing to connect a computer.

Sound that complements the picture

The built-in 3W speaker provides sound that works well for watching movies, presentations, and videos. If you want a richer sound, you can connect headphones or external speakers via the 3.5mm audio output.

Easy device connection and convenient setup

The Philips N-110 is equipped with an HDMI port, a USB-A port, a microSD card reader, an AV input, and a 3.5 mm audio output. This allows you to conveniently connect a laptop, game console, set-top box, media player, or streaming device. The USB-A port can also power compatible dongles with 5 V / 1 A, eliminating the need for a separate power adapter. The compact housing (146 x 123 x 62 mm) means the device fits easily on a shelf, table, or in a bag. The projector is equipped with a tripod mounting hole and an adjustable foot, making it easy to set the correct projection angle. Available projection modes include front, rear, and front/rear ceiling mounting, allowing you to easily adapt it to various spaces.

Included:

- N-110 Projector
- Remote control
- 2 AAA batteries for the remote control
- AC adapter with interchangeable plugs (EU, UK, US)
- Quick start guide
