

LANBERG LCS6-11CU-0305-S

SFTP stranded cable CU cat. 6

305m gray

Model: LCS6-11CU-0305-S

Manufacturer: LANBERG

EAN: 5901969421828

Product Code: 1101066

R5,067

The Lanberg LCS6-11CU-0305-S is a CAT 6 bulk network cable designed for robust performance in outdoor environments. With a tested frequency of up to 250 MHz and constructed with copper conductors and HDPE insulation, this cable ensures reliable connectivity across various applications. The SFTP technology helps to minimize interference, resulting in stable and efficient data transmission. Length indication and Fluke pass testing add convenience and assurance, making this cable a practical choice for network setups requiring durability in diverse temperatures ranging from -20°C to 70°C.

Constructed with PVC jacket material, the cable resists environmental factors, ensuring longevity and performance. Its solid design makes it suitable for a wide range of installations, ensuring a reliable network connection over extended distances. Compliant with EN 13501-6 and EN50575:2014+A1:2016 standards, this cable caters to various networking needs, providing an essential solution for connecting devices in today's interconnected world.
