

# Euhomy CF004 car refrigerator, 18L

Model: CF004-18BL

Manufacturer: EUHOMY

EAN: 5907085527055

Product Code: 1101075

## R3,861

### Euhomy CF004 car refrigerator, 18L

The Euhomy CF004 car refrigerator is changing the way you travel, whether you're going on a weekend camping trip, a long roadtrip or just want to transport food without the risk of it spoiling. With a capacity of 18 liters, an advanced compressor and app control, you gain full control over the temperature, and your food and drinks are always on hand and in perfect condition. The refrigerator cools in 15 minutes, consumes less than 1 kWh per day and is light enough to comfortably carry with one hand.

### Large capacity, compact size

The Euhomy CF004 will hold up to 36 330 ml cans or 18 550 ml bottles. The refrigerator will be perfect for both family vacations and solo trips out of town. Thanks to the well-thought-out interior, you don't have to choose what to take - everything will fit. At less than 10.2 kg, it's easy to pack it in the trunk and carry it around.

## **Fast cooling, low consumption**

Thanks to its powerful compressor, the Euhomy CF004 reaches 0°C in just 15 minutes (with an empty interior) and can cool down to -22°C. In ECO mode, it draws only 45 watts, which means very low power consumption - ideal for use from a battery or while traveling. MAX mode speeds up cooling, so it will come in handy when you want to chill groceries or ice cream.

## **Full control through the app**

The integrated Bluetooth function allows you to control the refrigerator via an app on your phone - change the temperature, check the voltage, set the mode and lock the screen without moving from your seat.

## **Effective insulation and tightness**

The lid closes magnetically and is equipped with a rubber seal. This prevents the cold from escaping, and the refrigerator maintains its temperature even when the power is disconnected. This is crucial when you stop for a picnic or sleep in a tent - the contents stay fresh and cold for longer.

## **Safe for the battery**

Battery protection system with three levels of protection (high, medium, low), which protects your car from battery drain. It can be powered from both a 12/24V cigarette lighter socket and a 110/240V household outlet. No matter where you are - it works everywhere.

## **Three power sources**

In the kit you will find a cord for power from a 12V/24V cigarette lighter socket and an AC adapter for a standard 110/240V outlet. So you can use the refrigerator on the road as well as at home or at the campsite - including with a power station (not included).

## **Quiet and shockproof**

The device works extremely quietly - it generates only 42 dB, so it won't disturb you even at night if you sleep in a car or tent. The refrigerator is also shockproof, which means that it works even on uneven roads and inclines of up to 30° without any problems.

## Included:

- Euhomy CF004 car refrigerator
- AC/DC power cable
- User manual
