Magcubic X7 Projector

The Magcubic X7 is a high-performance projector that combines native 1080p resolution, high brightness of 800 ANSI lumens, and 8K signal support, delivering a crisp and detailed image even in brighter environments. The Android 14 system offers access to a wide range of apps, and the Allwinner H726 processor ensures smooth multimedia performance. Thanks to features like Auto Focus and automatic keystone correction, the device is very user-friendly, while Wi-Fi 6, Bluetooth 5.4, and a throw ratio of 1.08:1 allow for convenient use in various spaces. The LED lifespan reaches up to 30,000 hours, meaning the projector can serve you well for a long time.

Bright image and native Full HD

The projector offers a brightness of 800 ANSI lumens, which translates to a clear image and better visibility of details—even during the day. The native 1080p resolution ensures good sharpness and clarity, while support for 8K content allows you to use modern signal sources without losing quality. Add to that HDR support and a high contrast ratio of 1000:1. As a result, the X7 excels at watching

movies, gaming, and giving presentations, offering realistic colors and rich detail in various conditions.

Android 14 - quick access to content

The Android 14 system allows you to use apps and streaming platforms without having to connect additional devices. The projector provides access to a wide range of online content while remaining very user-friendly. The included remote control with Air Mouse functionality enables smooth navigation through the interface. In addition, the powerful Allwinner H726 processor ensures smooth operation and a comfortable multimedia experience every day.

Automatic image configuration and smart adjustment

The Magcubic X7 is equipped with a set of features that make it easy to set up. AI-powered Auto Focus automatically adjusts the focus, while fully automatic keystone correction ensures proper image proportions without the need for manual adjustments. Additionally, the projector offers screen fit, 80-100% zoom, and obstacle avoidance, allowing you to quickly achieve a perfect projection regardless of the device's placement.

Feel like you're at the movies

With a throw ratio of 1.08:1, the X7 model allows you to achieve a large screen even in smaller rooms. The device can display an image up to 130" in diagonal from a distance of approximately 2.9 m, creating a home theater effect. It's a practical solution for small apartments, bedrooms, and more.

Built-in 5 W speaker

The integrated 5 W HiFi speaker allows you to use the projector without having to connect external speakers. The clear, rich, and detailed sound lets you immerse yourself even more in the content you're watching! It's a convenient solution for everyday movie watching or using the device in various locations.

Stable connectivity and broad compatibility

The projector supports Wi-Fi 6 and Bluetooth 5.4, ensuring fast, stable signal transmission and smooth content streaming. Additionally, the device supports wireless screen mirroring technologies such as AirPlay and Miracast, enhancing its functionality and ease of use. Wired connections are also possible—the HDMI port works with laptops, game consoles, and TV sticks, among others, while the USB-A port ensures compatibility with smartphones. A headphone jack is also available.

Flexible positioning and various usage scenarios

The projector can be positioned at various angles (within a 180° range) and supports several mounting options—on a table, tripod, or ceiling. The adjustable design allows you to adapt its position to your current needs, enhancing convenience at home, in the office, or during outdoor screenings. This lets you view content exactly as you want—regardless of location or device setup. At the same time, the compact build and minimalist design ensure the projector fits seamlessly into various spaces.

Included

- Projector
- Remote control
- Power cable
- User manual
