

Sonoff S60ZBTPF ZigBee smart outlet (4pak)

Model: S60ZBTPF 4Pack

Manufacturer: SONOFF

EAN: 6920075743906

Product Code: 1105910

R1,837

Sonoff S60ZBTPF ZigBee smart outlet (4pak)

Open the door to the world of smart energy management with the Sonoff S60TPF ZigBee outlet. This device combines advanced functionality, robust performance and support for smart home automation systems. It supports remote control, voice commands, energy consumption monitoring, and also acts as a Zigbee router, increasing the stability of the entire network. A compatible Zigbee hub is required for the device to function properly. The set includes 4 pieces of the product.

Durability and safety for years

The Sonoff S60TPF is designed for long-term and safe use. It can withstand up to 16A of current, and its relay provides up to 40,000 switching cycles. The enclosure has the highest level of flame resistance (Class V-0), and advanced surge and storm protection automatically cuts power if

dangerous voltage is detected.

Full control over energy

The outlet allows you to monitor your energy consumption in detail in real time. This allows you to check how much electricity your coffee maker or heater is using, for example. The function of historical reports (daily, hourly and monthly) makes it possible for you to identify patterns, prevent unnecessary energy waste, and thus reduce your bills. Smart automation will turn off energy-consuming devices when they are not needed, and an overload protection function will cut off power when a set threshold is exceeded.

Reliable operation in any situation

With local Zigbee control, the Sonoff S60TPF operates quickly and stably - even when the online connection is temporarily unavailable. The device processes data locally, enhancing security and privacy, and as a Zigbee repeater, it supports up to 64 end devices, supporting the stability of the entire network.

Control at will

With Sonoff Nest, you can control connected devices from anywhere - all you need is the eWeLink app. Prefer voice commands? Voice assistant support allows you to conveniently manage without reaching for your phone. Just speak a simple command and your voice assistant will perform the task.

Automation and compatibility

Set schedules and timers and create smart scenes to fit your daily routine. In combination with the Sonoff presence sensor, the light automatically turns on when someone enters the room and goes off when they leave. The socket can also be integrated with open source platforms such as Zigbee2MQTT or ZHA, allowing it to work with devices from multiple manufacturers. The S60TPF is equipped with an F-type plug, compatible with F-type and E-type sockets (CEE 7/7), ensuring broad compatibility with European electrical installations.

Included

- Socket x4
- User manual

Manufacturer	Sonoff
Model	S60ZBTPF 4Pack
Compatible plugs	E, F
Input	250V~50/60Hz MAX 16A u
Maximum load	4000 W
Dimensions	50 x 50 x 61.5 mm
Weight	79 g
Wireless connectivity	Zigbee 3.0
Power consumption in standby mode 1W	
Color	White
Housing material	PC V0
Storage space	Inside
Operating temperature	-10°C~40°C
Operating humidity	5%~95% RH, non-condensing
Application	eWeLink
