

SHELLY LightSolutions Hilux DS8 8W Ceiling Light (White)

Model: LightSolutions

Manufacturer: SHELLY

EAN: 5714255011227

Product Code: 1124016

R1,700

Shelly LightSolutions Hilux DS8 Ceiling Light (8 W, white)

Scandinavian simplicity, precisely directed light, and smart controls all packed into a compact ceiling fixture—the Shelly Hilux DS8 allows you to adjust the color temperature from 2200 K to 6000 K, offers a color rendering index (Ra) of ≥ 95 , and allows the light source to rotate 360°. This allows you to precisely tailor the interior lighting to its intended use. Wi-Fi and Bluetooth connectivity eliminate the need for an additional control unit, and the IP44 protection rating allows the light to be used in a wide variety of spaces.

Light that highlights every detail

The Shelly LightSolutions Hilux DS8 uses full-spectrum LED technology, which ensures natural color rendering. A high CRI of $Ra \geq 95$ ensures that the colors of fabrics, interior furnishings, decorations, and displayed products appear exactly as they should. This solution is ideal not only for home interiors but also for boutiques, jewelry stores, and elegant retail spaces, where every detail matters. A carefully selected color temperature allows you to create an atmosphere tailored to the time of day and the character of the interior.

Design Flexibility

The flexible design, featuring an adjustable beam angle, allows you to direct the light exactly where it's needed. The 360° rotating mechanism gives you full control over how you illuminate a space, whether you want to highlight decorations, illuminate a work surface, create a cozy atmosphere in the living room, or ensure the right conditions for work. The 40° beam angle allows for precise directional lighting and helps create a unique atmosphere in any room.

A smart home without additional devices

The lamp connects directly to your Wi-Fi network and uses Bluetooth technology, eliminating the need for an external control gateway. You can create schedules, synchronize the lighting with sunrise and sunset, and conveniently manage all settings via the app. The Shelly LightSolutions Hilux DS8 also functions as a Wi-Fi signal booster and a BLE gateway, working in conjunction with Shelly BLU devices. Additionally, it is compatible with the Homey platform.

Comfort at home, in hotels, and in commercial spaces

With a power consumption of just 8 W, it helps reduce energy usage, and its lifespan of up to 50,000 hours ensures long-lasting and trouble-free operation. The aluminum heat-dissipating housing increases the durability of the unit, while the IP44 protection rating and Class III insulation allow for installation in various indoor and outdoor spaces in accordance with applicable European standards.

Manufacturer	Shelly
---------------------	--------

Model	LightSolutions
Supply Voltage	220–240 V
Power	8 W LED
Color Temperature (CCT)	2200–6000 K
Luminous Flux	600 lm at 6000 K / 360 lm at 2200 K
Output current	170 mA
Output voltage	30–38 V
Beam angle	40°
Color rendering index (CRI)	Ra ≥95
Protection rating	IP44
Operating temperature	From -20°C to +40°C
Power factor (PF)	> 0.9
Dimming range	0–100%
Insulation class	Class III
Lifespan	50,000 hours
Diameter	Ø90 mm
Mounting height	39 mm
Mounting hole diameter	Ø68–83 mm
Material	Die-cast aluminum
Color	White
Connectivity	Wi-Fi and Bluetooth
