

LANBERG

Patchcord Cat.6

UTP 7.5m grey

Model: PCU6-10CC-0750-S

Manufacturer: LANBERG

EAN: 5901969437348

Product Code: 1126697

R559

The Lanberg CAT 6 patch cable is designed for reliable connectivity in networking applications. Built with Copper-Clad Aluminium (CCA) conductors, it offers an efficient solution for data transmission while ensuring lightweight flexibility and durability. The cable features snagless molded connectors, allowing for easy Plug-and-Play connectivity without the worry of damaging the connectors during installation or removal. With a tested frequency of up to 250 MHz, this cable is suitable for high-speed networking tasks, making it an ideal choice for homes or offices where performance is essential.

Constructed with HDPE insulation and LDPE cross filler, the Lanberg patch cable minimizes interference, maintaining signal integrity over long distances. It is compliant with various standards, including ISO/IEC 11801 Class E, ensuring reliability and compatibility with existing systems. The PVC jacket offers protection, making it durable for everyday use, while the stranded design helps reduce bending stress. This cable is a practical solution for users seeking quality and performance in their networking setup.
