hub via a 12 cm long USB-C cable.

The USB hub offers four USB outputs – one USB-A 5Gbps, ideal for fast connection of external drives or flash drives. Two standard USB-A 480Mbps outputs are sufficient for reliable connection of a mouse, keyboard, or printer. The fourth USB-C 480Mbps data connector allows the connection of most mobile phones and other devices with a common transfer rate.

The slim aluminum body not only looks great, but also provides mechanical durability and passive cooling. The USB-C hub is an ideal accessory for laptops with a limited number of USB-A connectors, allowing you to continue using your existing peripherals without need to purchase new ones. Plug & Play and Hot Plug features ensure easy connection without complicated installation and allow convenient connecting and disconnecting of devices while the computer is running. The hub can also handle permanent connection of several external drives.

The hub can easily handle connection to phones and tablets with a USB-C connector. For example, you can connect a flash drive, external drive, keyboard, or mouse to your phone.

Input (connection to computer, tablet or phone):

- USB 5Gbps (USB 3.2 Gen 1), connector USB-C male.
- Compatible with USB 480Mbps, USB 10Gbps, USB 20Gbps, USB 40Gbps, Thunderbolt 3/4/5.

USB outputs:

- 1× USB 5Gbps port, USB-A female connector.
- 2× USB 480Mbps port, USB-A female connector.
- 1× USB 480Mbps port, USB-C female connector.
- USB-C hub can handle the connection of several external drives at the same time.
- Charging of mobile devices (including iPad) from the hub's USB-A and USB-C ports.

Other features:

- Possibility to connect your device while running thanks to the Hot Plug support.
- Full Plug and Play support.
- Sleep mode support.
- Power supply via USB bus - USB bus power.
- **The high-quality shielded cable ensures high communication speed and minimal undesirable**
