The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
itworkup.co.za | sales@itworkup.co.za | +27 (11)541-9950

No need to connect network cables. Just insert a Nano-SIM card, then your camera is ready to connect to a 4G LTE network. Enjoy hassle-free installation and simple monitoring in places where the internet is not available, such as farms, forests, and construction sites.

Powerful Pan Tilt

Cover every corner flexibly with VIGI’s Pan Tilt camera. Customized patrol routes provide more intelligent and quick options to monitor key areas (up to 8 points for each route), reducing manual costs for adjusting pan & tilt angles repeatedly.

Human & Vehicle Classification

Integrated AI chips support advanced algorithms to distinguish humans and vehicles from other objects. You can flexibly customize alarm rules to match your monitoring needs and receive more accurate event notifications.

Automatic Tracking

Automatically tracks persons or vehicles of interest and provides seamless and longer video. This way, you will better understand what's happening and take action without wasting time on irrelevant footage.

Smart Detection for Efficient Monitoring

By setting the detection rules in advance, VIGI AI-powered cameras can accurately capture various abnormal events. This will greatly reduce false alarms and cover your specified monitoring needs in different scenarios.

Active Defense

Warn potential intruders off instantly with sound and light to pro-actively protect your property, even while away from the scene.

Two-Way Audio

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
itworkup.co.za | sales@itworkup.co.za | +27 (11)541-9950

With voice intercom support, carry two-way conversations while watching your feed from anywhere.

Smart Video Coding by H.265+

Without using any extra bandwidth, your cameras transmit compressed crystal-clear video to save disk space, ease network loads, and reduce monitoring costs without sacrificing image quality.

Remote Management

Take full control over your security anytime and anywhere on the VIGI app or client.

One system. Full security.

Run your business with peace of mind.

The VIGI professional surveillance system by TP-Link is dedicated to protecting the business you've worked hard to build — whenever, wherever. Our outstanding functions, reliable quality guarantees, and simplified installation work together to ensure your business stays safe and sound.
